Matching Grant Recipients  
Adopted from China

*Knowing that we were chosen as recipients of a Lifesong matching grant meant that we could involve others in this process, which has created a ripple effect of others considering adoption within their own families.*

Matching Grant Recipients  
Adopted from China

*We were so humbled for a second time to receive a matching grant through Lifesong which allowed us to raise \$13,000... I love that Lifesong managed the donations for us, providing accountability to make sure it was used to cover qualified adoption expenses. Also, the free mySTORY crowdfunding platform was a great way to help people give easily online.*

**David & Heejin**

Interest-Free Loan Recipients  
Adopted from South Korea

*Adopting a child is a daunting task. The emotional and often financial toll can be difficult... Lifesong's interest-free loan was such an important part of helping our adoption move forward. Having funds available to us through Lifesong really helped ease the burden.*

**Kevin & Amy**

Matching Grant Recipients  
Adopted from US

*Lifesong was so responsive and helpful each time we contacted them. When we got matched with the grant, they made everything clear and easy to follow about our responsibility in the process. The Lifesong staff is genuinely passionate about their role in adoption and in helping families. Their joy was contagious and made us excited about our journey.*

*Our family is forever grateful that God blessed us with the gift of Lifesong being part of our adoption journey. Not only were they extremely easy to work with, but we felt cared for when the adoption process got hard and we truly needed prayer for our family.*
